PROFESSIONAL EXPERIENCE

HSBC Continental Europe, Global Trade Solutions (GTS) <i>Commodity Trade Finance Intern</i> - Supported the financing of international commodity flows for a portfolio of 30+ producers, traders, and processors across power, soft commodities, and dairy - Managed borrowing base monitoring, collateral setup, and drawdowns throughout the lifecycle of structured trade finance facilities - Automated recurring reporting and borrowing base updates in VBA, saving dozens of hours per month across the team - Monitored collateral coverage, maturity schedules, and key risk indicators to support ongoing credit line management - Developed internal (ExCo, Group, business line) and client-facing dashboards covering portfolio activity, utilization, and risk	Paris, France Jul - Dec 2026
ECHO, Expansion des Centres d'Hémodialyse de l'Ouest <i>Management Controller</i> - Developed multi-site financial forecasts (>20 sites) using Excel and ERP data, supporting strategic decision-making - Participated in investment policy discussions with external advisors, gaining exposure to structured products and risk considerations	Nantes, France Jun - Aug 2025

SELECTED QUANTITATIVE PROJECTS

- Brent-WTI spread report:** modeled key drivers (freight, pipelines) of the spread and formulated relative value strategies
- Wheat-corn ratio analysis:** modeled feed substitution dynamics and backtested seasonal relative value signals on CBOT futures
- Options pricing and risk (Python):** implemented Black-Scholes pricing with Greeks and Monte Carlo simulations to assess portfolio risk under stressed scenarios
- Systematic trend strategy:** designed and validated a regime-filtered trend-following strategy in Pine Script across multiple assets with realistic cost assumptions, reconciled against an independent Python backtesting engine
- Intraday orderflow research (BTC/USDT):** built a Python research framework on Binance tick-by-tick data (aggTrades) with in-sample, out-of-sample and lockbox validation and full fee and slippage modeling; rejected signals that failed to survive trading costs rather than curve-fitting

LANGUAGES AND IT SKILLS

- Languages:** French (native), English (advanced, C1), Italian (intermediate, B1), Spanish (intermediate, B1)
- Technical:** Python (pandas, backtesting, Monte Carlo), Pine Script, VBA, Bloomberg, Microsoft Office Suite

INTERESTS

- Financial markets:** Active personal account trader for over 7 years, focused on systematic and discretionary strategies across commodities, equities and crypto futures, combining quantitative research, macro analysis and risk management
- Athena Fund:** led UAE equity research, producing DCF valuations on 10 ADX and DFM listed companies
- Theater:** Vice-President of Art Maniac; performed for 1,000+ attendees at Théâtre Traversière
- Calisthenics:** high-intensity training and advanced bodyweight skills demonstrating discipline and long-term commitment
